**Fostering Social Media Literacy
competences through In-
teractive Learning Settings for
Adults with Disabilities**

Project Aim

To raise awareness, contrast stereotypization and marginalisation of people with disability (PwD) in online media by incentivating their use and to provide tools to both teachers, educators and families as well as PwD, for a functional, pluralistic and safe use of internet and web media.

Objectives

To enhance digital media skills of young PwD using interactive learning settings to actively and constructively contribute to a fairer and more pluralistic representation of disability in social media.

To fill the gaps of the adult educators' preparation to better support young PwD in their engagement with digital (social) media.

Target Group

Young adults with disabilities

Teachers, educators, youth workers and parents

Policy makers and professionals in the media sector

Results

Study publication about the actual representation of young PwD on online resources

Social media platforms for a peer to peer learning

Guidelines/ toolbox for a responsible social media use

Learning programme for educators, supporting young PwD

Mobile Game for young PwD

Multiplier events for professionals of public sector
